

Mega Deep Cleaning Programme

Date: - 31st December 2023

Time: - 8:00 AM to 11:00 AM

Place: - Bandra Station (W)

Platform: - Offline

December 31st, 2023, Mumbai.

On December 31, 2023, the NSS council of Father Conceicao Rodrigues College of Engineering actively participated in a special Mega Deep Cleaning Programme organized across Mumbai. The event aimed to foster community involvement in maintaining cleanliness and hygiene. The inauguration took place at the iconic Gateway of India, graced by esteemed dignitaries, including the Honorable Chief Minister, Honorable Deputy Chief Minister, and the Honorable Municipal Commissioner. The ceremony was broadcast live on a big screen, showcasing the commitment of our leaders to civic responsibility.

The event commenced with inspiring speeches from the dignitaries, emphasizing the significance of community engagement in keeping our cities clean. The NSS CRCE team felt honored to be part of this noble initiative. The symbolic inauguration at the Gateway of India set a positive tone for the entire event. It showcased the unity of purpose in the endeavor to create a cleaner and healthier environment for Mumbai residents. The NSS CRCE team, wearing distinctive uniforms, proudly participated in the inaugural ceremony and demonstrated a strong commitment to community service.

The live screening of the inauguration ceremony on a big screen allowed all volunteers, including NSS CRCE members, to witness the event's grandeur. This not only motivated the participants but also instilled a sense of collective responsibility towards the city's cleanliness. During the program, we were provided with water and some snacks.

Following the group photo, the NSS CRCE team embarked on its assigned cleaning duties. The volunteers cleaned the nearby area of the Bandra railway station and successfully headed to our homes. The camaraderie developed during this journey contributed significantly to the overall success of our participation.

The Mega Deep Cleaning Programme on December 31, 2023, was a remarkable initiative that brought together communities, government officials, and institutions for a common cause. NSS CRCE's active involvement showcased our dedication to community service and civic responsibility. We believe that such initiatives not only contribute to the immediate cleanliness of the city but also cultivate a sense of responsibility among citizens, paving the way for a cleaner and healthier future. We look forward to future opportunities to engage in similar impactful events.
